THEME: "Recent Advances on Intelligent Technology Innovation"

About Taichung

The attractiveness of Taichung originates in its abundant ecosystems, the ancient glamour of history, and incredible arts and literature. While endeavoring to achieve modernization as well as remember the past, Taichung strives to meet the international standards to be globally well-known as well. For example, National Taichung Theater, most visited locations on Instagram, nicknamed "the Most Difficult House to Accomplish" by the industry, was designed by the internationally acclaimed Japanese architect, Toyo Ito. Come and explore the images of streams and hanging gardens on the exterior of the opera house break the usual binary separation between stage and audience.

Welcome

We are pleased to invite you to the **International Conference on Environmental and Civil Engineering Innovation 2020 (ICECEI2020)** scheduled from **October 23-27, 2020 in Taichung, Taiwan.**

The conference is a sub-conference of the International Multi-Conference on Engineering and Technology Innovation 2020 ([IMETI2020](#)).

Sessions

- A. Civil & Structure Engineering
- B. Environmental Engineering
- C. Architecture and Building Materials

Scope of the Conference

ICECEI2020 conference covers a wide range of fields in advance science and precision engineering innovation and aims to bring together engineering technology expertise. The professional from the industry, academia and government to discourse on research and development, professional practice, business and management in the science and engineering fields are welcome to the ICECEI2020.

Publication

The accepted papers of ICECEI2020 will be sent for possible indexing by EI Compendex. **Excellent papers (about 100) will be recommended to ten more SCI journals (IF=0.4-3.23) for publication after extending and an extra review. The SCI journal recommendation will be made before the registration.**
